

Illinois
HEART AND
VASCULAR

Do You Have Leg Pain?

- Do you develop pain or discomfort in the muscles of either leg when walking?
- Does this pain only start when you are walking?
- Does this pain resolve within a few minutes with rest?
- Does this pain occur in one or both legs?
- Do you have pain or discomfort in your thighs, hips or buttocks?
- Do you have any non-healing foot wounds

**If so, you may have P.A.D.
peripheral artery disease.**

For more information about peripheral vascular disease, or any other cardiovascular problems, visit our web site at www.illinoisheart.com
